

## **F**acts about Athens SWCD

The Athens Soil and Water Conservation District (SWCD) was organized in 1946 for the purpose of planning and carrying out programs for the conservation of our natural resources. The District, a political subdivision of the State of Ohio, operates under the provisions of the Ohio Revised Code and is governed by a board of five supervisors who are elected by the landowners of Athens County and serve staggered three-year terms. The District covers approximately 322,560 acres in Athens County.

Cooperation with the Athens SWCD is on a voluntary basis and anyone needing assistance in solving natural resource problems may apply for help by contacting the office. Technical aid in planning and applying needed conservation practices will be furnished by District staff and the Natural Resources Conservation Service (NRCS) personnel assigned to the District. The District also provides a wide variety of conservation education programs to both youth and adult audiences. Education programs are compliant with curriculum standards. All services provided by the District are free of charge to the public.

Funding for the District's work is provided by the Athens County Commissioners, the City of Athens and the Athens County Auditor. Additional financial assistance is provided by the Ohio Department of Agriculture, Division of Soil and Water Conservation.

### **Office:**

69 South Plains Road  
The Plains, Ohio 45780

### **Phone:**
